

February 2023 The Success Foundation Newsletter

We were honored to have so many amazing community members come out to the 13th Annual Success Foundation Breakfast on March 6th at Greeley West High School! This year, more than 400 attendees got to hear how community support is helping District 6 students prepare for the future. Students are always the highlight of our program and we were excited to have so many involved from the presentation of the colors, to the playing of the national anthem, to the catering of the event, to the centerpieces, to the keychains provided to all guests, to the emcees...our students are AMAZING!!!

Funds raised through the event will support the new Career & Technical Education (CTE) Center and we were fortunate to get to hear from two outstanding students who have enrolled in the Cosmetology and Welding programs. The CTE Center will be open to students Fall, 2023.

If you missed it, don't worry! We will be looking more in-depth at several of the featured projects and students in the coming months so stay tuned!

As always, thank you for supporting District 6 Students through your contributions to the Success Foundation!

Take a look at our other amazing projects featured!
